

Jackie Wenden, Bristol Branch

This was the first Ladies Conference I had attended, so I didn't really know what to expect; however, knowing the ethos of the CMA I was confident enough to invite two ladies from my church. It became evident during the event as to why ladies do need a 'safe space' to share their stories. I was so blessed and privileged to hear testimonies from these brave ladies who had been through so much. We explored the four Gospel accounts of the woman anointing the feet of Jesus with costly scent. My 'take away' message was to spend time with the Lord and to ask the Holy Spirit to reveal what He wants me to hear and receive. We explored the theme through different activities and art and craft. I came away from the conference feeling so blessed.
