

## **Roberta McDougall Forth and Tay Branch**

I was truly moved by what God did during the Ladies Conference this year. I was amazed at what 'broke' spiritually during the conference, especially during the sessions on the Saturday. The sessions built one on the other. In each session I felt God was allowed to do more and more in people's lives. The things that people were able to share were moving and empowering.

This conference marked a deepening of the work God is doing amongst us.
